

Dear Sir/Madam,

We would like to remind you our invitation to participate in

**The 13th International Conference on Measurement** that will be held **17-19 May 2021**.

Unfortunately, due to the ongoing pandemic situation this year, participants will not meet in the [Smolenice castle](#) as usual. **The Conference will be organized ONLINE**. We hope, that although it's social side will be reduced, the scientific mission of the Conference will be fulfilled.

The main topics of the conference will cover three areas:

- **Theoretical Problems of Measurement,**
- **Measurement of Physical Quantities,**
- **Measurement in Biology and Medicine.**

Because of the above mentioned changes in the organization of the Conference, the registration fees will be substantially reduced and the presentations should be prepared in advance. We plan to combine the uploaded presentations with online discussion with authors. For more and detailed information, please, check the Conference web site: [www.measurement.sk/M2021/](http://www.measurement.sk/M2021/) where the instructions will be updated and specified.

The **registration** is opened from **1<sup>st</sup> February 2021**, the **deadline** for paper submission is **12<sup>th</sup> March 2021**.

Traditionally also the **Young Investigator Award (YIA)** competition for researchers not older than 35 years is organized.

The **Proceedings of the Conference** will be published as usual.

Authors of selected papers will be invited for publication of the topic in an extended form in the impacted **on-line journal Measurement Science Review** ([www.measurement.sk](http://www.measurement.sk)) published by Sciendo, de Gruyter company and indexed in Current Contents Connect, Thomson Scientific SSCI, Scopus, EBSCO and several other databases.

Preliminary confirmed **keynote speakers** are:

- **Isabel van Driessche**, Ghent University, Department of Inorganic and Physical Chemistry, Belgium
- **Peter Tino**, School of Computer Science, The University of Birmingham, UK
- **Robert Hatala**, The National Institute for Cardiovascular Diseases, Dept. of Arrhythmias and Pacing, Bratislava, Slovakia

We are looking forward to meeting you at the Conference!

Ján Maňka  
Measurement 2021  
Conference Chairman

Jana Švehlíková  
Measurement 2021  
International Program Committee Chairman
