

Dear Sir/Madam,

We are pleased to invite you to participate in

The 14th International Conference on Measurement <https://www.measurement.sk/M2023> that will be held from 29 to 31 May, 2023 in the [Smolenice Castle](#) situated in Small Carpathian mountains near Bratislava, Slovakia. The main topics of the conference will cover three areas:

- **Theoretical Problems of Measurement,**
- **Measurement of Physical Quantities,**
- **Measurement in Biology and Medicine.**

Authors of selected papers will be invited to publish their manuscript in extended form in the impacted **on-line journal Measurement Science Review** published by Sciendo, de Gruyter company and indexed in Current Contents Connect, Thomson Scientific SSCI, Scopus, EBSCO and several other databases.

Traditionally also the **Young Investigator Award (YIA)** competition for researchers not older than 35 years will be organized.

Call for Special sessions

In 2023 we would like to continue with organizing of Special sessions and offer the conference attendees an opportunity to promote their research themes. Therefore, we would like to announce a **call for Special sessions**, the proposals will be evaluated and approved by the International Program Committee.

In order for a **Special session proposal** to be considered, it should identify a theme and at least three presenters. If selected, their presentations will be officially invited.

The list of the selected Special sessions will be included in the 2nd announcement. Therefore, other participants can ask for joining the Special session if their topics fit the theme of the session. A session will consist of up to six presentations.

When **proposing the special session**, please use the following format:

Names, email addresses, affiliation and short biographies (500 characters) of the organisers who are expected to have a PhD degree.

Title of the session, the aim of the session, a list of proposed invited speakers who agreed to have an oral presentation at the conference. The Special session participants should submit in time a 4-pages abstract which will be reviewed like any other conference submission (for details on abstract submission rule and format see www.measurement.sk/M2023)

Please, send the proposals by email to Measurement2023@savba.sk no later than **20th December 2022**. The organisers of the selected sessions will be notified before **15th January 2023**.

For more information see the Conference web site: www.measurement.sk/M2023

Preliminary confirmed **keynote speakers** are:

- Olaf Dossel, Karlsruhe Institute of Technology, Institute of Biomedical Engineering, Karlsruhe, Germany
- Pavel Ripka, Czech Technical University, Faculty of Electrical Engineering, Department of Measurement, Prague, Czech Republic
- Andrea Serra, Paramed MRI Unit, ASG Superconductors SpA, Genoa, Italy
